Building Champions Client Portal

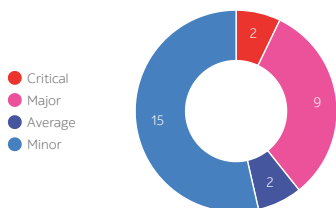

Product version: 1.0

General quality analysis

The overall quality of the application can be estimated as **Low for FF** and **Medium for GC**. The total number of defects that were found in both Google Chrome and Mozilla Firefox is [28](#). Functional defects prevail, [2](#) of them have the Critical severity and [9](#) defects gain the Major severity. The majority of defects is opened for modules "[Dashboard](#)". A detailed quality analysis is presented below.

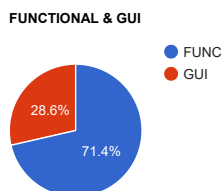

Detailed quality analysis

The total number of defects by Severity

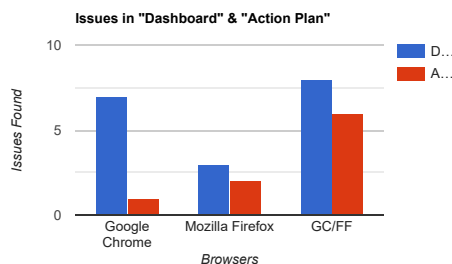

The chart shows the statistics of defects by the degree of the negative impact they have on the application with Two popular Browsers (**Google Chrome and Mozilla Firefox**). Almost **39.29%** of issues have [Critical](#) and [Major](#) severity. [Minor](#) (**53.57%**) defects prevail in the application. Application doesn't fulfill its purpose on **Mozilla Firefox** as all the critical issues were found in this browser.

The total number of defects by Error Type

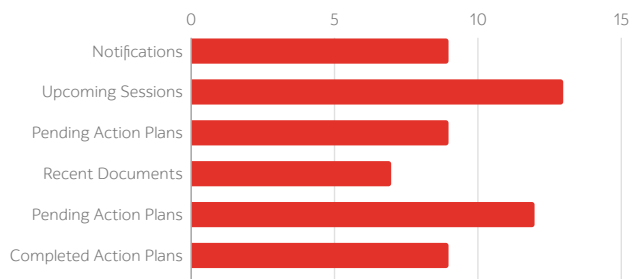

The chart presents the ratio of defects by Error Type. Considering Both **Google Chrome and Mozilla Firefox**, **Functional Error 20 issues**, and **GUI 8 issues** were found in the Application of Building Champions Client Portal. After Comparing by Error type, it shows that **71.4%** of the issues were found in **Functional** and **28.6%** of issues were found in **GUI** in the Web Application.

The total number of defects by Browser with Module

The chart presents the defects by platform with the Module. The "**Dashboard**" and "**Action Plans**" was tested with Two Different browsers. For **Google Chrome** platform **8 issues** were found, and in **Mozilla Firefox** **5 issues** were found Individually. Some defects were actual in both of the browsers. The total of **14 issues** were found those were actual in both of the Browsers.

The total number of defects by Submodule

The chart represents defects quantity on separate submodules. The majority of issues actual in "**Upcoming Sessions**" (**13**), "**Pending Action Plans**" (**12**), and in other submodules like "**Notifications**" (**09**), "**Pending Action Plans**" (**09**), "**Recent Documents**" (**07**) and "**Completed Action Plans**" (**09**). Some of the issues are actual in individual Modul which are calculated in corresponding sections.

Quality of separate modules

Module	Quality	Comments
Dashboard	Medium	In general, the quality of the module can be estimated as Medium. The overall number of defects in this module: 38. One of them has Severity Critical and 5 of them have Major and affect the quality of the module vastly. The most significant defect here is No details information is shown in the Sections in FF (QATC-779093). Another notable defect (QATC-780495) is that Notification messages don't move to viewed notification section in FF after changing it from GC. The list of the issues actual for module "Dashboard" is here.
Notifications	Medium	The quality of module is estimated as Medium. In this section 4 defects were found. The most important problems are the following: Moving Notification Messages to Viewed Notifications from one account, changes to another account too in FF (QATC-779111). Another notable defect (QATC-779098) is that Message contents don't match the specification in GC/FF and (QATC-779100) "See Viewed Notification" doesn't change to "Close Viewed Notifications" in GC/FF.
Upcoming Sessions	Medium	This module doesn't contain any serious defects. 4 issue was opened for this section. The problem is that Clicking on "See Full Schedule" doesn't display "Schedule" tab with the session expanded when collapsing it before

in GC ([QATC-779324](#)). Other Minor defects are ([QATC-779139](#)) "Upcoming Sessions" and "Pending Action Plans" are not Left aligned in GC/FF, ([QATC-779319](#)) Schedule doesn't open with expanded inlay after clicking on Session date in GC, ([QATC-779321](#)) Section's Information format doesn't match with the specification in GC.

Pending Action Plans • Medium

The quality of module is estimated as Low. In this section 3 defects were found. The most important problems are the following: Clicking on Action Plan Name doesn't display the expanded inlay for the specific Action Plan in GC ([QATC-779133](#)). Furthermore, Pending Action Plans list doesn't open Expanded after Collapsing it before when Clicking on Action Plan Name in GC ([QATC-779117](#)), "Upcoming Sessions" and "Pending Action Plans" are not Left aligned in GC/FF([QATC-779139](#)).

Recent Document • Medium

This module doesn't contain any serious defects. One issue was opened for this section. The problem is that There is no link named "See All Documents" as specified in the specification in GC/FF ([QATC-779196](#)).

Action Plans • Low

The quality of module is estimated as Medium. In this section 21 defects were found. The most important problems are the following: Code mask is shown in the table instead of Action Plans information in FF ([QATC-779079](#)). Furthermore, "Mark as Complete" button doesn't perform the action when clicking on it in FF ([QATC-779082](#)). The list of the issues actual for this module is here.

Pending & Completed Action Plans • Low

The quality of module is estimated as Low. The Issues actual in this sections are: Table Information format doesn't match the specification in GC/FF ([QATC-779357](#)), after Refreshing the Window Returns all the Completed Action Plans to Pending Action Plan list in GC ([QATC-779470](#)), "Mark as Complete" button's design doesn't match in different browsers in GC/FF ([QATC-778855](#)), Pending and Completed Action Plans' Lists Expanded and Collapsed by clicking around the "+/-" button in GC/FF([QATC-779391](#)), Completed Action Plans| Table's last column name and Input don't match the specification in GC/FF ([QATC-779399](#)), Default expansion and collapse of the Plans' list don't work if it is changed before in GC/FF ([QATC-779418](#)), "Completed Action Plans" and "Pending Action Plans" table's Column distances are not the same in GC/FF ([QATC-780515](#)).
